Incorporating a company can be a complex and time-consuming process, especially when navigating the legal framework and regulations. a wide range of legal structures available, we make sure that you are compliant

At IncHub, we have a team of experienced corporate advisors who specialize in assisting investors with business formations and corporate restructuring.

A Detailed Process Flow is outlined for your quick Understanding on the process

# SetUp Guide

**Initial Call**

**Tailored Proposal**

**Onboarding**

**Start Business  
Operations**

# Initial Call

Its always good to have a face-to-face interaction

The Initial Call is to learn about your business needs. This call lasts for 20-30 min, where we learn how you operate your business. This is a free consultation to find out if its the right

In summary, we will identify the type of business you plan to establish and assess the products/services you offer. Subsequently, we will determine the most suitable jurisdictions that align with your business goals.

Free Zone Company Formation

FMainland Company Formation

Offshore Company Formation

# Tailored Proposal

Based on our initial discussion, we provide you with a tailor-made proposal that fits your business needs.

- This will be a summary of company incorporation blueprints,
- Documents Checklist for company setup and corporate Bank Account,
- Process Flow & and estimated time lines,
- overall investment required in Year 1 and from the following year.
- We will also be listing a schedule of charges that you may choose to pick from.

Review them accordingly and send us approval to proceed further to start the registration process

# Onboarding

Once you approve the proposal, our team will guide you through the onboarding process. This involves completing the necessary Know Your Customer (KYC), signing the service level agreement, and submitting the relevant application documents required for registration.

The Journey Starts from here, where we will be in contact with you until your company is in the UAE
